Height: 3 feet

Spread: 4 feet

Sunlight: ○

Hardiness Zone: 5a

Group/Class: Shrub Rose

Description:

A lovely, shrub rose variety featuring a rounded habit, medium green foliage and few thorns; soft orange buds open to reveal stunning peach blooms; medium tea fragrance; a great choice for hedges, beds or large patio containers

Ornamental Features

Roald Dahl Rose is covered in stunning lightly-scented double peach cup-shaped flowers at the ends of the branches from late spring to mid fall, which emerge from distinctive orange flower buds. The flowers are excellent for cutting. It has dark green deciduous foliage. The oval compound leaves turn orange in fall.

Landscape Attributes

Roald Dahl Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This is a high maintenance shrub that will require regular care and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Disease

Roald Dahl Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use
- Container Planting

Planting & Growing

Roald Dahl Rose will grow to be about 3 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. To help this plant achive its best flowering performance, periodically apply a flower-boosting fertilizer from early spring through into the active growing season. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

Roald Dahl Rose makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
